

Meeting Agenda

Location: 3207

Date: 2012-03-19

Time: 9:00

Facilitator: Felix Willebrand Westin

Participants: Jonathan Orrö, Niklas Andréasson, Niklas Logren

Objectives

Discuss use cases.

Come up with character concepts.

Reports

Git repo works.

Some use cases has been written.

Basic Domain Model exists.

Discussion items

What use cases do we want?

How should we format our use cases?

What characters should we have?

Outcomes and assignments

Walljumping should be possible, as well as walking (!), shooting and regular jumping.

We're writing use cases in gdocs collaboratively, for uploading to repo later.

We decided upon four character concepts – Close Quarters Bro, Precision Pal, Soldier Dude and Stealth Gal.

Wrap up

Goals for next meeting:

- Finish domain model

- Finish use cases
