

# Meeting Agenda

**Location:** 5207

**Date:** 2012-05-04

**Time:** 10:00

**Facilitator:** Jonathan Orrö

**Participants:** Niklas Andréasson, Niklas Logren, Felix Willebrand Westin

## Objectives

Bullet deletion

## Reports

Bullet deletion still doesn't work.

Rendering FPS labels works, though!

## Discussion items

Why doesn't bullet deletion work?

## Outcomes and assignments

Tried some stuff with bullet deletion, didn't help. When we try to delete it from the physics world (b2World), we sometimes get an error that seems to indicate that the bullet has already been removed.

## Wrap up

Goals for next meeting:

- Fix bullet deletion.
